

To whom it may concern,

Emerson Electric have been dealing with GTA Trailer rentals since 1996. We have had up to 285 trailers on rent from GTA during some of our peak demand periods. What makes GTA unique is their staff. They have an excellent team of committed individuals who are dedicated to providing exceptional service and support.

Primarily we rented 48' cartage dry vans. We have always been able to rely on GTA having available stock and to deliver the trailers quickly to our location when needed. GTA always has been very prompt in responding to service related issues or problems. All the work on our trailers has been completed on-site at our facility. In addition to the onsite service GTA provides a pick-up and delivery service which is a value added service that we found very beneficial.

I recommend GTA to any company looking for a full-service trailer rental company to depend on.

Yours truly,

A handwritten signature in blue ink that reads "Karen Larsen".
